To Whom It May Concern,

Recently the 7<sup>th</sup> Day Adventist denomination held what they called, "Countdown to Eternity" prophecy conference in our city. It was held at a neutral location in town and presented itself to be nothing more than a prophecy conference. Instead of simply dealing with prophecy issues at this event, they presented their twisted form of evidence as to why all the other churches in town were worshipping on the wrong day of the week and unless the people attending this conference repented and joined the 7<sup>th</sup> Day Adventist church, they were sure to receive the mark of the beast and be lost forever. Our own church was not affected by their conference but people from other churches in the area did respond and joined the Adventist's church and were immediately baptized into their faith.

In response to this deception that took place in our city, we had Dale and Carolyn Ratzlaff out to bring some clarification to the real truth about the 7<sup>th</sup> Day Adventist church and what they really teach and the tactics that they use to gain membership.

Dale was raised as an Adventist and pastored his own church in the denomination before coming to the truth. He lovingly presented the truth of God's Word about the Sabbath question and revealed many of the other false statements that have been made by the denominations prophet - Ellen White. He also explained the tactics that the Adventist have started using in order to get to the people attending other local churches.

Knowing that most of us have relatives, friends or co-workers in the Adventist faith, I highly recommend that you have Dale and Carolyn to your fellowship to both expose the truth about the Adventist's and to have a better understanding of what the Scriptures say about the Sabbath question.

In Christ,  
Pastor Mike Morris
